

ENVIRONMENTAL POLICY STATEMENT

SB Security Solutions aim to be an environmentally friendly company, with the intent of focusing on our staff becoming more “Climate Change” & Green Aware. Our culture is to ensure all employees understand that they make a significant contribution, by their acts, to the company and this policy.

We will, by complying with regulations or environmental legislation:

- Explore measures for the reduction of waste materials produced by the company.
- Reduce our consumption of energy, by switching off all electrical machines in the office when they are not in use.
- Ensure our use of heating, lighting and ventilation is monitored and used efficiently.
- Purchase energy efficient products where it is practicable to do so.
- Aim to reduce our carbon company footprint by encouraging our staff to car share, use trains, buses, underground systems, bicycles and walking whenever possible.
- Assist our clients, by complying with any policies or instructions which help to reduce pollution and climate change in all its forms.
- This policy will form a part of our initial induction package and annual training.

This policy will be reviewed annually and if legislation, regulation or company policy changes.
